

Prehistorian Profiles

Instructions for Teachers

Activity Overview

Our understanding of history and science has come about through the work of people who have dedicated their lives to research. This activity helps introduce some key British people who have advanced our knowledge of prehistory and guide the children through research of their own.

Learning Objectives: Foundation Subjects

History (Changes in Britain from the Stone Age to the Iron Age)

History (*understand the methods of historical enquiry*)

History (*the lives of significant individuals in the past who have contributed to national and international achievements*)

Computing (*use search technologies effectively and be discerning in evaluating digital content*)

Resources Required

A4 Paper

Printer

Pens and pencils

Computer with internet access

Prehistorian Name

By... Name of Child

Draw the
person here

(BIRTH) - (DEATH)

Birthplace:

*Where the children
should write the birth-
place of the person*

Family:

*Write the names of the
closest relatives of the
person, if known*

Famous Work

*Write a few lines about
what the person was most
famous for, which could
be things they discovered,
places they worked or
ideas they came up with*

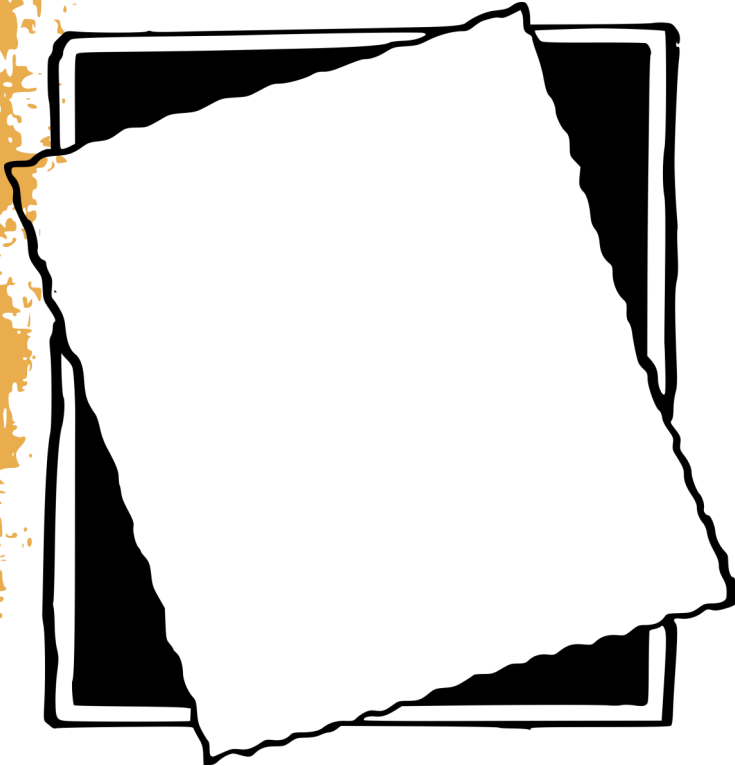

Draw the
discovery here

Best Discovery

Dorothy Garrod
